Come along clamps T546P

Description

Capacity: 6 ÷ 14 mm,
Clamping length: 170 mm,
Max. load: 800 daN,
Material: Aluminium alloy,
Weight: 1,5 kg.

Running out roolers

Description

Running out rollers with hook P150 are made of aluminium. Maximum load 150daN. Maximum cable diameter 30mm.

Running out rollers with hook P800 are made of high strength cast aluminium alloy. Maximum cable diameter 50mm.

P150

P800

Ground clamp EC13T

Description

Using for galvanized connection suspensions cable with grounding wire or another suspension cable. Diameter Range of diameter: 3 ÷ 13mm, Weight: 0,09 kg.

Dynamometer DYNA 1000

Description

Dynamometer with digital display and maintain of the peak value.

Technical parameters:

- Range: 0-1000daN,
- Resolution: 5 daN,
- Measurement error: 1%,
- Automatic power off,
- Digital reading,
- Typical battery 9V,
- With two connectors lugs,
- Roated unloaded,
- Waterproof,
- Dimensions: 280 x 90 x 80 mm,
- Colour: dark gray.
