

Anchoring clamps for figure-8 AC

Description

Anchoring clamps AC for figure-8 cables with steel messengers are made of one opened conical body, a pair of metallic jaws and a flexible bail. These clamps allow an easy, quick and direct dead-ending of aerial figure-8 cables with steel messengers without need to strip or separate the messengers.

Application

Overhead data communication lines.

Properties

Clamp reference	Messenger diameter over insulation (mm)	Installation load d [daN]	Weight [kg]	Body (1)	Jaws (2)	Bail (3)	L [mm]	l [mm]	E [mm]	d [mm]
AC 6 140	3 - 6	300	0,09	Termoplastic	Aluminium alloy	Stainles steel	140	55	53	11
AC 7 200	4 - 7	750	0,17	Aluminium alloy	Aluminium alloy	Stainles steel	200	65	66	12
AC 9 260	6 - 10	1500	0,30	Aluminium alloy	Aluminium alloy	Stainles steel	260	80	73	12
